### **SUPPLEMENTAL ACTION**

The Supplemental Notice of Allowability is issued to correct the listing of allowed claims in the Office Action dated December 24, 2003. Claims 4 and 17, incorrectly indicated as allowable in the above dated office action were canceled by Applicant's amendment.

This does not affect the allowability of the application.

#### ***Allowable Subject Matter***

Claims 2, 3, 5 – 12, 14 – 16, 18, 19, 21, 23, and 24 are allowed.

#### **Claims 2 and 12:**

Consideration has been given to Applicant's arguments of December 12, 2003 and the Examiner agrees that baluns such as shown by Mourant et al. are not used in quadrature hybrid circuits shown by Gorrie et al., where baluns have a phase difference of 180° and not 90°. While Fig. 6 more correctly shows the invention by Mourant et al., the Examiner concurs that the balun would not be used in the quadrature hybrid circuits for the ninety degree phase difference.
